

## **AS Music Technology – Holiday Preparation**

There are 3 tasks, which you are required to prepare for your **FIRST** Music Tech lesson in September.

**1. Research Based:-** The Development of Reggae  
We would like you to research the History of Reggae Music, taking into consideration its' Historical and Social context. Internet downloads **WILL NOT** be accepted and I have ways of proving that!  
(This is work which you will need early in the course!)

**2. Choices of Music:-** Choose 2 songs  
Please choose 2 songs, and find / download backing tracks and lyrics for them. We will be using them in the first lessons.

**3. Music to Record:-** Choose 4 songs  
Please choose 4 songs (ideally they should be song with lyrics) from 1950 onwards, which you might like to record as part of your coursework. Suitable ideas for research might be:

- The Beatles
- Ballads
- Acoustic cover versions

You have a free choice – but we will expect you to respond well to advice and guidance when it comes to the final choices!

Any problems – just pop in to school or email us!
