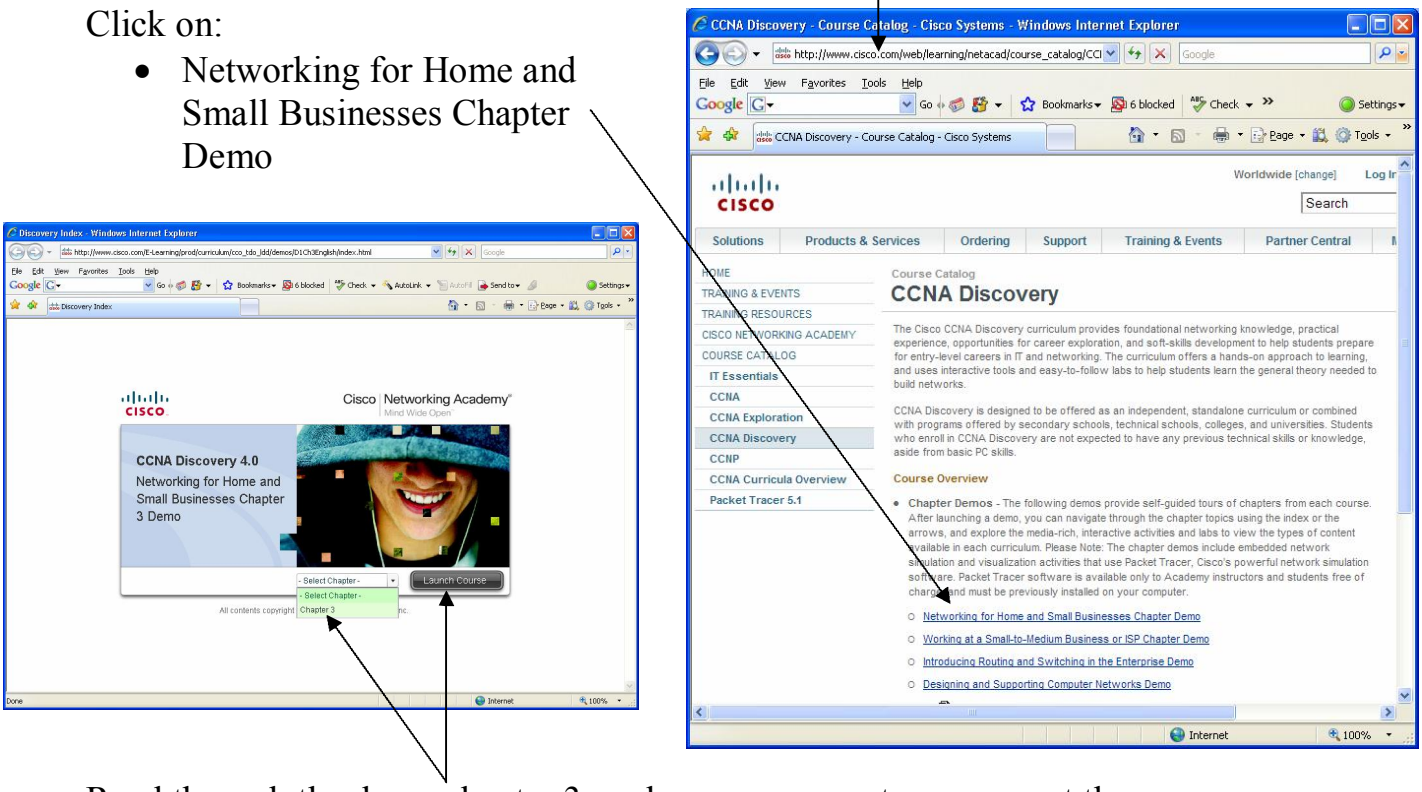
Summer work for the IPro ICT course

Go to:
http://www.cisco.com/web/learning/netacad/course_catalog/CCNAdiscovery.html

Click on:

- Networking for Home and Small Businesses Chapter Demo



Read through the demo chapter 3, make your own notes, carry out the interactive activities and complete the quiz at the end of the chapter.

There are Lab Activities throughout the chapter, which you need to read through, but don't worry if you don't have the resources to actually complete them.

You also need to keep a log of any problems/issues that you experience using a computer/software. Note down:

- Dates/times
- Identify any extra support you received and by whom
- Location
- Problem
- Solution/Outcome
- Who the problem is to be referred to if specialist advice is required

Bring your notes and computer log to the first lesson in September.

Please email me if you have any questions.

Thanks

Ms Jarvis
